

Traditional English Wirework

# Handmade by

"We invite you to discover Garden Requisites, situated in Batheaston village near the city of Bath. Here you will find a vibrant and thriving company with a passion for design and architectural heritage, producing beautiful and functional products for your home and garden in a sustainable way that will last a lifetime."

**Hilary and John Thurman, Garden Requisites**

# British craftsmen

Design

Inspired by original architectural features and made using traditional techniques, we are constantly innovating and refining our product range to create timeless designs that will suit both period and contemporary properties.

Made in Britain

We take pride in being "Made in Britain" and have developed the expertise, facilities and training for our apprentices to promote excellence in British engineering. We manufacture products in limited batches or one-off pieces.

Sustainability

Our products are made from solid steel, which is always hot-dip zinc galvanized to form a rust resistant finish that will last a lifetime. These materials are naturally occurring and infinitely recyclable; a truly sustainable solution.

Service

As award winning designers and manufacturers, we have a wealth of experience and passion for our products. We are here to help you with every aspect of your purchase and to answer any questions that you may have.

Testimonial We have used Garden Requisites more than once and each time found their service second to none and their products beautiful. The porch and canopy we have bought enhance our properties beautifully. We would thoroughly recommend them.

**D. Knight and N. Horrocks, Gloucestershire**

# Scoop porches for making an

**4' Porch with curved sides**

H8'6" x W4' x D24" (260 x 122 x 61cm)

A 24" deep porch with solid roof, shown with curved, double framed sides.

PH408

**4' Porch with straight sides**

H8'6" x W4' x D24" (260 x 122 x 61cm)

A 24" deep porch with solid roof, shown with straight, double framed sides.

PH408

Porches provide an elegant covered entrance for any exterior door, ideal for wet weather. The decorative lattice side panels offer sturdy support for climbing plants, especially when combined with our matching planters. Our scoop porches are straightforward to install and are a statement piece that will add real value to a period or contemporary property. Available in a standard 24" depth you can choose from our range of straight wirework sides, curved wirework sides or circular steel columns. All porches are made in three sections - the roof and two sides - for easy assembly on site.

entrance

**6' Porch with curved sides**

H8'6" x W6' x D24" (260 x 183 x 61cm)

A 24" porch with solid roof, shown with curved double framed wirework sides.

PH410

**8' Porch with columns**

H8'6" x W8' x D24" (260 x 244 x 61cm)

A 24" deep porch with solid roof, shown with columns.

PH416

Front elevations show the double framed detail of the front wirework side supports and the double frame below the top leading edge of the solid steel roof canopy.

Side elevations show the straight wirework, curved wirework and steel column options.

**Testimonial** We needed a porch over our doorway to give it some added protection. We didn't want a tiled timber porch or a double glazed one, so when we found Garden Requisites, we knew this porch was the perfect design for us.

**Mr & Mrs Cassidy, Surrey**

# Ironwork porches

Bespoke Ironwork Porch in Aged galvanized finish

**4' Ironwork Porch**  
PH425  
H8'10" x W4' x D30" (269 x 122 x 76cm)  
A 30" deep porch with solid roof with curved ironwork sides.

**6' Ironwork Porch**  
PH426  
H8'10" x W6' x D30" (269 x 183 x 76cm)  
A 30" deep porch with solid roof with curved ironwork sides.

6 Roof detail

Ironwork Porch

All our porches can be made to order in any size, but for a larger property or a wider door you may wish to consider our new Ironwork Porch which benefits from a deeper 30" roof to provide a more substantial shelter for your doorway. The elegant simplicity of this design ensures that it complements both period and contemporary houses and will add a stylish and sympathetic focal point to your property. The roof height is 24" and the depth of the ironwork sides 7" as standard. Our porches are easy to install and can be made to measure.

# Traditional porches

**5' Georgian Porch with iron framework**  
H9' x W5' x D24" (270 x 153 x 61 cm)  
A 24" deep porch shown with iron framework.

PH421

**5' Georgian Porch with decorative framework** PH421/S  
H9' x W5' x D24" (270 x 153 x 61 cm)  
A 24" deep porch shown with decorative iron framework.

**6' Georgian Porch with curved brackets** PH422/S  
H46" x W6' x D24" (117 x 183 x 61 cm)  
A 24" deep porch shown with curved wirework brackets.

PH422/S

We've designed our porches to look good on any style of property, but if you are looking for a more authentic architectural feature, our traditional Georgian porches are the perfect solution. Our traditional porch incorporates design details that are inspired by original historic designs.

**Testimonial** I took my ideas and measurements down to the showroom in Bath where they worked out all the details and then gave me a quotation. Once it was ready we collected it from the workshop, installed it ourselves and here it is, perfect!

**Mr Smith, Oxfordshire**

# Scoop canopies transforming

Ellipse Canopy in Aged galvanized finish - 4' wide x 18" deep

# Window boxes

**10" Window Box**  
 Medium H10" x W3' 5" x D10" (25 x 104 x 25cm) **BA005**  
 Large H10" x W4' 6" x D10" (25 x 137 x 25cm) **BA006**

Our favourite window box now with a deeper 10" projection for your larger pots and planters. We specialise in made to measure lengths to fit your windows.

Our pared down design suits any style of property, from country cottage to city apartment. Providing robust and secure support for plants, these easy-to-install mini balconies can also be fixed directly to a wall, no window necessary. Ideal for an instant, low maintenance garden you can change every season - scented lavender in summer and evergreen topiary in winter - or why not grow your culinary herbs within snipping distance of your kitchen window?

# Circular planters

**Circular Planter**

Medium H16" x Dia 18" (40 x 46cm)  
Large H17" x Dia 24" (43 x 61cm)

**PL001**  
**PL002**

Our circular steel planters are supplied with four solid steel feet for added stability. The base has several drainage holes to avoid waterlogged roots.

With the look of traditional lead, our circular steel planters are a lighter, maintenance-free alternative, built to withstand the damaging effects of weather, soil and water. Unlike wooden planters which will eventually rot, the zinc galvanized steel finish ages gracefully, resulting in a beautiful weathered patina. Our planters have no sharp edges or corners and are generous enough to hold sumptuous arrangements of mixed planting or bold topiary.

4' Roman Arch in Grey painted finish

# Arches a great support act

Practical and whimsical, arches are a romantic addition to your garden. A lattice arch can display an array of fragrant flowering climbers over a seating area, gate or walkway, an essential feature in any garden. We have created a system of matching weather-resistant, maintenance-free lattice panels and posts that can be used in conjunction with arches to decorate, define or screen different areas of your garden.

Made to measure straight wall trellis panels in Grey painted finish

18 Tess of The d'Urbervilles® rose by David Austin Roses

Wirework lattice detail

# Wall trellis

Unlike wooden trellis which needs treating against rot and has to be replaced regularly, our light but strong wall trellis panels provide an elegant, maintenance-free alternative that will last a lifetime. Providing a stylish yet unobtrusive support for climbing plants, they can also be used to soften, decorate or disguise garden walls or the exterior of your property. Our panels are designed to work individually or together as a scheme. Each wall panel is held away from the wall by welded tubular steel spacers allowing the free growth of twining and climbing plants. We never use unsightly plastic components with any of our trellis panels. Wall panels can be made to measure.

# Panels & posts

A range of wirework panels and matching posts enables you to enclose, divide or screen different areas within your garden. The superior alternative to wooden trellis or timber fencing, these wirework lattice panels are corrosion-resistant so your precious plants can be left undisturbed for years. Use our complete system of inter-working panels and posts, in combination with matching arches and wall trellis, to create a robust but stylish framework for your climbing plants. The posts can be concreted in to the soil or made with base plates to bolt down on to hard surfaces such as flagstones or even timber decking. All fixings are high quality galvanized steel; we never use inferior plastic components.

Straight Wall Top Panels and Wall Top Posts in Aged galvanized finish

Convex Wall Top Panels and Front Fixing Posts in Aged galvanized finish

# Wall top panels & posts

Our wall top panels and posts can be attached to the top of your garden walls to improve your privacy and create an attractive division between you and your neighbours. Unlike wooden trellis, they are maintenance-free and when covered with flowers and foliage create a barrier that offers the perfect balance between picturesque and private. Lighter than timber yet more durable, our trellis panels are the perfect solution for additional screening above your timber, brick or stone wall. Graceful, yet strong enough to support heavy climbers, these panels are easy to install. Most customers need made to measure trellis to fit their specific site conditions, so please get in touch with your dimensions and preferred panel designs and leave the rest to us as we provide a design service as standard.

Wall Top Post

Wall Top Panels are supported by top fixing or front fixing posts made from solid steel bar. Designs can vary greatly depending on your existing wall design, material, orientation, levels, corners, varying heights, capping stones etc. Standard top fixing posts have a flat 4" footplate; front fixing posts have a pair of fixing brackets for bolting flush to the wall.

Testimonial I'm thrilled with my fireguard, thank you so much. My son and daughter are too - well the whole family are delighted with it actually, which is a first. Thrilled, delighted, you name the adjectives.

**Mrs R. Williams, Norwich**

# Traditional Fireguards

Welcome to our new range of traditional fireguards. Our hand-woven fireguards offer authentic protection for your wood burning stove as well as your open fire. Inspired by beautiful and practical examples from the past, we've developed the new range to enhance any style of hearth. The rigidity of the design set our fireguards apart from inferior folding models. The Straight fireguard is inspired by the beautiful Victorian nursery guard that was once made in Britain and became popular for generations. With historical provenance and attention to detail, our designs are robust, easy to use and can also be made to measure. Optional fixings are available to secure the sides of the fireguard to the wall; unclipping one side allows easy access to tend the fire. Should you require extra protection from sparks, ask us about finer mesh liners.

Aged finish

The top rail is made from a tactile convex bar.

Aged finish

Crimped and woven wirework detail.

Black paint or Aged galvanized finish

The Straight fireguard is available in a range of four standard sizes ranging from widths of 26" to 48" as shown above. We can adapt the dimensions to suit your requirements. The top rail is gently convex to eliminate sharp edges and provide a tactile surface. Solid steel feet are welded to the underside of the bottom rail for balance and stability allowing the guard to sit lightly on the hearth. Handmade by us from hot dip zinc galvanized steel, and available in Aged zinc galvanized or Black painted finish.

42" wide Large Fireguard in Aged galvanized finish

# Contemporary Fireguards

Welcome to our new range of Contemporary Fireguards, the perfect solution for any interior setting, whatever the current interior design trends. Any fireplace or wood burning stove will be enhanced by this pared down timeless design that won't ever look dated. The rigidity of this design sets our fireguards apart from the inferior folding models available, and provides the structural integrity required to function as a guard. Made from fully welded solid steel, they require no self assembly, and the closely spaced vertical rods are only 2"/50mm apart - far too close for your average cat or dog to squeeze through. For added security, optional zinc finished side fixings are available and if you need a specific size, we can also make to measure, just get in touch.

Convex Top Rail

The Contemporary Fireguard is available in four standard sizes ranging in widths from 26" to 48". Our fireguards are made from solid steel and being fully welded, will offer effective protection from a stove or open fire. We use a satin sheen to paint the fireguards in a dark Anthracite Grey, but can also offer Aged zinc galvanised finish or Black painted finish made to order.

Large 42" Contemporary Fireguard in a Black painted finish

Testimonial I'm absolutely delighted with my new large log holder, thank you so much. It holds enough logs to last all weekend, and it looks beautiful and well matched next to my wood burning stove.

**Mrs Morgan, Salisbury**

# Traditional Log Holders

Elegant yet extremely practical, our new range of Traditional log holders will not only match our Traditional fireguards but will look good on any hearth. The handwoven wire mesh provides the ultimate solution for log storage and will enhance any fireplace. The design is perfectly balanced, fully welded from solid steel and is hot dip zinc galvanised for a rust resistant finish and very long life. Each size is strong enough to hold a full capacity of heavy logs and kindling but won't take up much floor space - the perfect solution for avoiding daily trips to the shed!

## 22" high - Small log holder

H22" x W15" x D12" (56 x 38 x 30cms)

LH101 Aged zinc finish £350

## 35" high - Medium log holder

H35" x W15" x D12" (89 x 38 x 30cms)

LH102 Aged zinc finish £425

## 47" high - Large log holder

H47" x W15" x D12" (120 x 38 x 30cms)

LH103 Aged zinc finish £495

Small Log Holder

Very sturdy and perfectly balanced

Solid framework

Strong outer frame for maximum stability

Wirework mesh

Ideal support for logs and kindling

Steel feet

Supported by four welded feet

# Contemporary Log Holders

The new Contemporary log holder range is designed to look good as well as perform an essential fireside service. Unlike many designs available on the market, our log holders don't rely on frivolous decoration, just pared down, good design. The sturdy outer framework adds mass and solidity to the log holder and the inner supporting rods emphasise the linear curving shape. Available in dark Anthracite Grey, our log holders are designed to hold full capacity of logs without taking up much floor space around the fireside.

**22" high - Small log holder**

H22" x W15" x D12" (56 x 38 x 30cms)

LH201 Anthracite Grey £350

**35" high - Medium log holder**

H35" x W15" x D12" (89 x 38 x 30cms)

LH202 Anthracite Grey £425

**47" high - Large log holder**

H47" x W15" x D12" (120 x 38 x 30cms)

LH203 Anthracite Grey £495

Small Log Holder

Simple, elegant linear design

Solid framework

Strong outer frame for maximum rigidity

Supporting rods

Vertical rods for consistent log support

Welded feet

Four cylindrical feet for stability

# Gazebos

Create a special outdoor space for afternoon tea or garden parties in the summer, or simply provide a magnificent focal point for a larger garden with one of our wirework gazebos. Swathe in climbing plants for beautiful blooms and shady foliage in summer, or create a romantic rose arbour by adorning with scented ramblers. We offer a range of arch, window or full lattice side panels so just describe your dream gazebo and we'll design it especially for you. Each corner post has bolt-down feet to secure on to a flat, level surface and the gazebo is very straightforward to install.

**Octagonal Gazebo** PA101  
H11' 2" x External diameter 10' (340 x 305cm)  
Shown with Arched Gothic side panels.

**Plan view**  
The Octagonal Gazebo is made in separate sections for easily bolting together on site.

# Finishes

Every 90 seconds across the world, one tonne of steel turns to rust, so we hot dip zinc galvanize our products to BS EN ISO 1461 to form a corrosion resistant and maintenance-free product that will last a lifetime. All products in this brochure are available in Plain zinc finish, Aged zinc finish and the standard paint colours shown below. Paints are matt finish for canopies and porches; satin finish for wirework trellis. We never use gloss paint!

Plain Zinc Galvanized

Fresh zinc has a bright silver sheen which will gradually weather to a beautiful matt, light grey finish.

Aged Zinc Galvanized

We reproduce the ageing process by etching the fresh zinc to achieve a darker, weathered patina.

Light Bark

A mellow hue with a hint of green, similar to the bark of a Bay tree. The perfect colour for trellis and arches.

Dark Grey

An appropriate colour choice for canopies to complement exterior leadwork or slate.

Jet Black

A traditional and timeless choice for porches and canopies that works with most properties.

# How to order

To place your order please call 01225 851577. Our lines are open from 9am - 5pm Monday to Friday. Alternatively, please email your requirements and we'll contact you to process your order. We can answer your questions regarding design details, dimensions, finishes, timescales and delivery before you place your order.

**Showroom** open weekdays 9am - 5pm and Saturdays by arrangement.

To fully appreciate the beauty and diversity of our handmade English wirework and ironwork please visit our showroom near Bath. Here you will see our unique range of products and finishes and where we can assist you in developing your ideas.

## How to order

To place an order call 01225 851577. Our telephone lines are open

Monday to Friday 9am - 5pm. We confirm all orders in writing by

post. Please check your order confirmation to ensure that the specification matches your requirements. Most products are made to order and are normally available within six weeks of order.

## Payment

Full payment with orders for standard products and 50% deposit for made to measure, with balance due when the order is ready. You can pay by debit card, credit card (1% transaction fee), bank transfer or send a cheque made payable to Garden Requisites Limited. Goods remain the property of Garden Requisites until full payment is received.

## Delivery

Delivery charge from £29.50. Prices vary according to size and destination and apply to UK mainland. Once your order is ready, we'll contact you to confirm a convenient delivery date. In the unlikely event that your packaging is damaged in transit, please write 'damaged' under your signature and call us immediately.

## Terms & Conditions

Do not leave the products wrapped and unchecked as it is your responsibility to report any damage within 24 hours of receipt. Dimensions and finishes may vary as all pieces are handmade and finished. We reserve the right to change the specifications and prices of our products without notice. Our full terms and conditions are available on our website.
